About Me

I am a third-year computer science undergraduate at UCSC who is passionate about learning new technologies and applying them to real-world problems. I have experience in full-stack development and am seeking a beginner-level opportunity to contribute to a dynamic team. I am a dedicated, quick self-learner who stays updated with new technologies and trends. My communication, problem-solving, time management, collaboration, and adaptability strengths help me work effectively with others and achieve team goal

Education

- **University of Colombo School of Computing(UCSC)**
